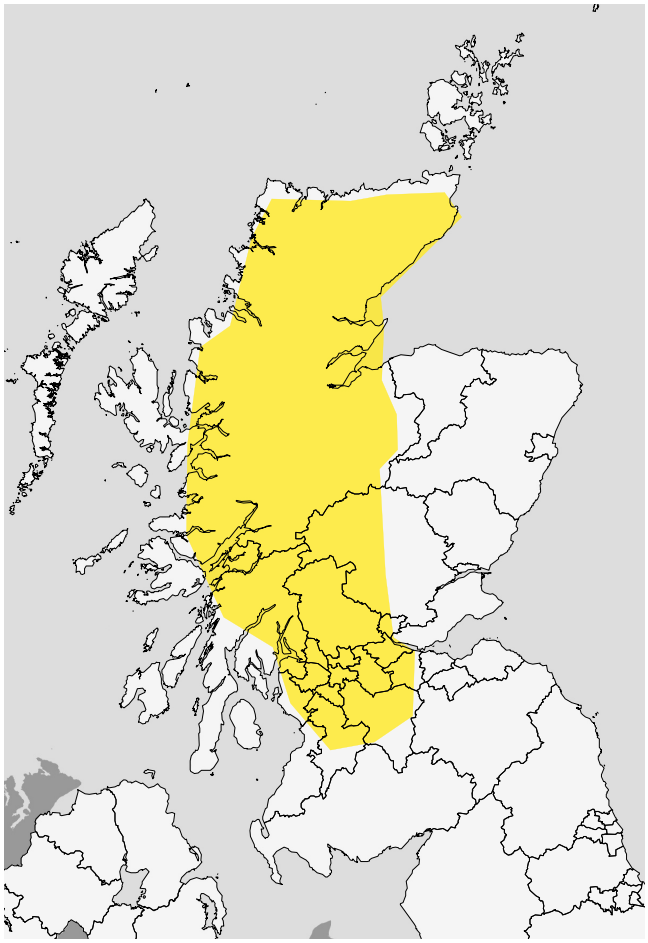
Yellow warning
Ice

Between
00:00 Fri 4 Feb 2022 and
11:00 Fri 4 Feb 2022



Icy patches are likely especially on untreated surfaces, leading to tricky travel conditions in places.

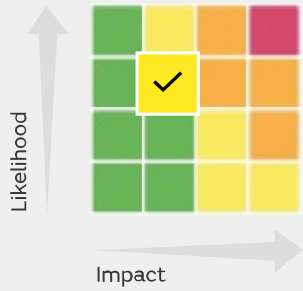
What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Northwesterly winds bringing cold, showery conditions, leading to icy patches overnight and into Friday morning. This is most likely on untreated surfaces, but in some places grit or salt may be washed off by heavy showers.

Showers will be wintry at times even to low levels, with a few cm of snow possible on some of the the highest routes, and smaller amounts down to around 100-150 metres elevation.



Medium likelihood of low impacts
